TO WHOM IT MAY CONCERN

This letter is to certify that Mr. Mohammad Mofassair Hossain Bhuiyan had a work record within our business organization from 10 January, 2014 to 08 November, 2014 as an Executive Expert of Power System Department. During his attachment in the team, he was assigned to project planning, proposition, implementation, subsequent market analysis and communication with the customers. He was also responsible for the incubation of trainee engineers and worked as a part-time instructor in our training division.

The tenure of his engagement within our organization was yet a short but remarkable one. We found him dedicated, sincere, punctual and highly professional. His outstanding management capacity added extra value to the projects he was in charge of. His dynamic intrapersonal skills and team playing ability helped to achieve quality output in numerous aspects.

I firmly believe that his admission application for Master of Business Administration and Engineering (MBA&E) at Hochschule für Technik und Wirtschaft Berlin is worth considering for approval. Attainment an MBA&E degree would surely add an extra dimension to his career. From the work record he left within our employee book strongly suggests that, if he gets the right opportunity to develop himself with the required academic & professional skillsets as a business management professional that are being offered under the curriculum of your MBA&E program, he would become an extremely valuable human asset for any business organization in future.

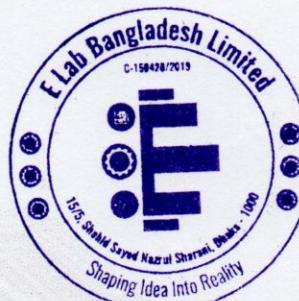

We wish him immense success in every honest future endeavors of his life.
